

Brother Of Mine

Dan Jones 2026

Diamonds rarely do shine as bright as you did when I met you back then.
Everyone else passed you by, I stayed for a while and a friendship we made.
We couldn't know what this road would bring, the two of us fighting for a life of good things.

Leaving home young, working so hard, singing and playing our way to the bar.
People did tell us our dreams couldn't be, there's only one road to walk, you and me

So sing my brother, the only way we've ever known.
So sing sweet sister, don't give your heart up or your home.
Yea sing with me father, so I know I'm not alone.
And sing with me mother, we will sing while we walk him on home.

Memories of you, the crazy times we had, singing and strumming, oh the beers that we drank.
I won't forget when I learned of your pain, I stood by your bedside steadfast in the rain.

So I'll sing my brother, the only way I've ever known.
So we'll sing sweet sister, don't give your heart up or your home.
Yea sing with me father, so I know we're not alone.
And sing with me mother, we will sing while we carry him on home, carry him home.

Diamonds rarely do shine as bright as you did when I met you back then. A man that you want by your side when it's tough getting through a day at a time.
Your cards had been dealt in the dead of night, time waits for no man, dead or alive.

So sing my brother, the only way we've ever known.
So sing sweet sister, don't give up your heart or your home.
Yea sing with me father, so I know I'm not alone.
And sing with me mother, we will sing while we walk him on home.
